

Flexible Gravity Roller Conveyor

EQUIPMENTS
MANUFACTURER OF LIFTING & MOVING EQUIPMENTS

Flexible Gravity Roller Conveyor

1. Powerful & Efficient single phase motor
2. Excellent Agility & Compact design
3. Individual Height Adjustable Wheel structure
4. Easy to Install & Maintenance Free System

Product Description

The Moti ZG 10 Flexible Gravity Roller Conveyor is a robust and reliable premium product for daily loading & handling goods. It impresses in continuous daily use thanks to its easy handling, maintenance-free design and outstanding durability. Known for proficient and reliable mechanism, flexible gravity roller conveyor can be installed easily. With its low cost maintenance, the product is expandable and adjustable to support various operations.

- Ergonomic control element can be operated with either hand
- Optimised hydraulics for reduced effort

- Durable thanks to robust materials and solid construction
- Maintenance-free design with all connections lubricated for life
- PU Wheels with Break for all the wheels for ever lasting durability

The ZG 10 Flexible Gravity Conveyor is a high-quality product. All functions can be easily operated with one push / in gravity. Thanks to the special design, robust construction material & ribbed belt drive technology.

Moti Equipment the leading manufacturers and a suppliers of flexible gravity roller conveyor ,we believe the enhanced

Flexible Gravity Roller Conveyor

durability and sustainability of our products make the roller conveyor resistant against different types of load, wears and impacts.

The performance of goods loading & moving process within factory increases with the advanced features of flexible motorised roller conveyor. The verified range of our products is available in different varieties and at an attractive price.

Product Features

Easy to operate

Moti ZG 10 Series of Conveyor is designed considering the easy operation of the system & being user friendly. The equipment operate with the help of gravity where all the leg heights can be individually adjusted for quick setup of the conveyor.
